

Dear Valued Customers,

## Measures to Regulation on High Efficient(IE3) Motor

We appreciate your continued support to TACMINA products. We would like to inform you of our measures to the Japanese regulation for the high efficient motor.

As you may know, we have to change our existing motors to high efficient motors, IE3 motors on and after April, 2015 according to the Act on the Rational Use of Energy. Any three-phase induction motor of 0.75kw or higher is subject to this law.

The high efficient motors will be adopted for the products listed below effective on February 4, 2015: some products are scheduled to effective on April 1, 2015. There are changes in specifications of some models along with the motor change. Please contact our sales representatives for more information. We apologize for any inconvenience this may cause you.

1. Affected model and Order acceptance date: The models listed below, equipped with three-phase motor of 0.75kw or higher  
Date: April 1, 2015  
Affected models: Smoothflow pump, APL/ APLS/ BPL/ PLF series  
Motor-driven pump, F series
2. Shipping date: On and after May 1, 2015  
\*This schedule is subject to change depending on the motor stock.  
\*Please contact us for the request of order or shipping before the scheduled date.
3. New price: The motor prices are raised. Please contact sales representatives for more details.
